USGS Geomagnetism Program English[edit]. Noun[edit]. geomagnetism (uncountable). the magnetism of the Earth; the science that studies the magnetism of the Earth Geomagnetism - Hong Kong Observatory ?The Geomagnetism Research Group undertakes world-leading research into the causes, evolution, behaviour and impact of the Earths magnetic field, and . Journal of geomagnetism and geoelectricity - J-Stage Geomagnetic fields Facts, information, pictures Encyclopedia.com 13 Apr 2015 . Geomagnetism. The Earths magnetic field (or geomagnetic field) is an ever-changing phenomenon that influences human activity and the natural world in a myriad of ways. The geomagnetic field changes from place to place, and on time scales ranging from seconds to decades to eons. Geomagnetism - Geoscience Australia Established in 1961, the journal Geomagnetism and Aeronomy (Geomagnetizm i aeronomiya) covers the fields of interplanetary space; geoeffective solar events .
